Young developer with a strong passion for IT since childhood. In my work experience I've been focused on developing .NET and React Native based software. I believe that teamwork is fundamental in large-scale software development. Continuous learning and a healthy work-life balance are essential to me. My hobbies are: gym, books, movies, TV series, travel, and gaming.

Professional Experience

 **January 2025 - Present**

 Blizzard S.R.L

 Mira, Venice, Italy

 Remote

Software Engineer

I started working for Blizzard S.R.L in January 2025 as a Software Engineer. I have been working on the development of a new tool that allows users to manage industrial machines, using .NET Core and DevExpress for the frontend, and SQL Server for the database. I am also involved in the maintenance and improvement of existing tools, using Git for version control and Docker for containerization.

 **October 2020 - January 2025 · 4 years 4 months**

 Bizeta Retail Solutions srl | a Custom company / Custom S.p.A

 Mestre and Mira, Italy

 Hybrid

Software Engineer

My first experience in Bizeta was working for the GShop Suite making small integrations and by creating an ETL connector (.NET Core) for GShop Suite and [IdStore](#) to replace older handhandled Windows CE devices with newer Android ones (Xamarin Android). In 2022 i was moved into the development team for [OneStore](#), which is part of the Software Business Unit of Custom S.p.a. OneStore is a point of sale solution for the retail fashion and luxury sector. The Backend is developed in its entirety with .NET and recently I started developing more and more on the frontend side in ReactNative and bundled with [Expo](#).

Other technologies used: SQL Server, Azure SQL Server, SQLite, Azure Dev For version control and branch workflow: Git with Azure DevOps, GitKraken (Git GUI), using release branch workflow with pull request policies
